

Discover the Tensor Key Account Advantage

Credible and Economically Compelling Geogrid Technology

Our system approach to construction means that we'll partner with you throughout your project's life span – from planning and design to installation and on-site consulting – to help **cut labor and material costs and get the job done faster**. You will experience the convenience of having a supplier, design service, and site support **all through one qualified account manager who will support your projects**.

EXPERIENCE

Tensor is the industry leader in soil stabilization and reinforcement. We have developed products and technologies that have been at the forefront of the geotechnical industry for the past three decades. As a result, you know you can rely on our systems and design expertise. Our products are backed by the most thorough quality assurance practices in the industry. And, we provide comprehensive design assistance for every Tensor system.

BIDDING ADVANTAGE

We can partner with any member of your team at the beginning of your project to recommend a Tensor Solution that optimizes your budget, financing and construction scheduling.

DESIGN ASSISTANCE

Experienced Tensor design engineers, regional sales managers, and distributors will develop budget estimates and proposals to help you evaluate your best construction options and determine the most cost-effective approach.

SPECIFICATION

Our value-engineered solutions feature stamped drawings with precise construction details. Changing site conditions can be quickly addressed in the field or in our Engineering Department.

SITE SUPPORT

Tensor regional sales managers and our distribution partners can advise your designers, contractors and construction crews to ensure the proper installation of our products and prevent unnecessary scheduling delays.

KEY ACCOUNT REBATE PROGRAM

In addition to the other benefits listed, as your volume grows, Tensor's rebate program provides money back at the end of the year on qualified purchases.

Whether you are an engineer, contractor, or owner - We can help.
