INDOT SR66 Slide Repair

LOCATION

Tell City, Indiana

APPLICATION

State Highway Slide Repair

PRODUCT

SierraScape

QUANTITY

1,400 square feet

OWNER AND/OR DEVELOPER

Indiana Department of Transportation

CONTRACTOR

Lutgring Bros., Inc.

ENGINEER

Joey Franzino, P.E.
Geotechnical Operations Engineer
Indiana Department of Transportation

INSTALLATION DATE

June 2015

PROJECT DETAILS

Project was the repair of a slope failure on Indiana SR 66, approximately one mile east of its junction with SR 166. The failure was a relatively shallow circular wedge failure due to the toe being eroded by moving water from the East Fork of Deer Creek thus allowing the circular wedge to develop. This SierraScape wall is 20 feet high and has a face batter of 1(H):5(V); and, it was constructed and reopened to traffic in less than 6 weeks.
