

Description

Reconstruction of Interstate 5 in Los Angeles County (Contract No. 07-25264)

Graph 1: 2021 IRI Data

RESEARCH

2021

IRI readings were collected using the TotalPave[®] technology (www.totalpave.com). The project was constructed in 2017 and the above measurements were taken in 2021. The purpose of the measurements is to verify the IRI is within acceptable ranges after 4 years of trafficking.
