Adi Masonry Court

LOCATION

Burlington, ON

OWNER

Adi Development Group, Inc. /
City of Burlington

CONTRACTOR

Howlett Development & Construction
Services Ltd.

ENGINEER

Urbantech West

INSTALLATION DATE

October 2018

PROJECT DETAILS

A new road needed to be built to service a planned condominium building. Existing subgrades were too soft for construction traffic, and the City of Burlington required assurance that utilities would not be damaged by the construction traffic. Tensar TX5 TriAx Geogrid was used to stabilize the road for construction traffic while protecting the existing underground utilities.

PRODUCT

TriAx® TX5 Geogrid
9,000 Square Meters
